Developer Experience Summary

Web, Mobile, and WhatsApp Chatbot Developer
Xamarin • .NET MAUI • Infobip WhatsApp Chatbots • Vue.js

I'm a software developer with hands-on experience building mobile apps, modern web applications, and automated WhatsApp chatbot solutions. My work bridges user-friendly interfaces with reliable backend integrations, helping companies streamline communication, improve customer engagement, and deliver polished digital experiences.

I specialize in cross-platform mobile development using Xamarin and .NET MAUI, creating responsive, maintainable apps with clean architecture and strong UI/UX principles. On the web side, I build fast, component-driven interfaces using Vue.js, integrating seamlessly with APIs and backend services.

I also develop WhatsApp chatbots using Infobip's WhatsApp API, automating customer support, onboarding, notifications, and transactional workflows. My focus is always on clarity, scalability, and delivering solutions that work smoothly in production.

What I'm great at

- * Cross-platform mobile apps with .NET MAUI & Xamarin
- * WhatsApp chatbot automation with Infobip
- * Web applications using Vue.js
- * API integrations, webhooks, and backend communication
- * Clean, maintainable architecture and responsive UI design
- * Troubleshooting, optimization, and production-ready delivery

I enjoy solving complex problems, refining user experiences, and building systems that connect mobile, web, and messaging channels into a cohesive ecosystem. Always learning, always improving, and always focused on delivering value.

Experiencia

Marketing Digital de México

Programador

enero de 2015 - Present (11 años 4 meses)

Ciudad de México, México

+10 años de experiencia programación de Windows aplicaciones móviles universales y Windows escritorio usando C# y 4 años desarrollando aplicaciones universales multiplataforma XAMARIN FORMS, Webservices, REST, API's

Educación

UnADM

Ingeniero en Desarrollo de Software (Estudiando), Tecnologías de la información · (2020 - 2023)
